# **Tibetan calendar explained**

The year start at different times relative to the western calendar. Months identified by Element, Sign and number can be repeated and Tibetan days also identified by Element, Sign and number, 30 in a month, can be omitted and doubled. The Tibetan calendar is a so called luni-solar one.

## **Solar day**

The basic unit of time is the solar day (nyin zhag) which starts at daybreak (nam langs, pratyūṣa). The most common definition for this time is when one is able to see the lines on the palms of the hands. Calculations based on this text makes clear that mean daybreak occurs at 5AM L.M.S.T (Local Mean Solar Time) seven hours before the mean Sun crosses the meridian at noon.

Each solar day is therefore equal in length and each is assigned a number. 0 Saturday, 1 Sunday, 2 Monday, 3 Tuesday, 4 Wednesday, 5 Thursday and 6 Friday.

## **Lunar month / day**

A lunar month (tshes-zla) starts at New moon and incorporates 30 lunar days (tshes zhag) where the first one starts with the new moon (Sun and Moon are in conjunction each having the same longitude). The second day starts when the Sun and Moon are  $12^\circ$  apart. The third day when they are  $24^\circ$  apart, etc. Lunar days vary in length between 21.5 and 25.7 hours.

## **Tibetan day count**

The first day of a Tibetan month is the solar day from 5AM till 5 AM next day where the new moon is before 5AM.

E.g. Lhasa new moon 20220303 01:35:55 so Tibetan day 1 starts this day.

### **Normal day**

- 20220303 day count 1 moon rise Lhasa 08:52 which gives the next day 20220304 day count 2

### **Omitted day**

- 20220321 day count 18 moon rise Lhasa 23:22 which gives the next day 20220322 day count 19
- 20220322 day count 19 no moon rise which gives an omitted day 20
- 20220323 day count 21 moon rise Lhasa 00:29 which gives the next day 20220324 day count 22

### **Double day**

- 20220312 day count 10 moon rise Lhasa 14:21 and moon set 04:11 so the next day 20220313 has day count 11
- 20220313 day count 11 First moon rise Lhasa 15:15 and moon set 05:01 so the next day 20220314 has the same day count (moon set after 05:00)
- 20220314 day count 11 Second moon rise Lhasa 16:12 and moon set 05:47 so the next day 20220315 has day count 12

## Calendars

There are two types of calendars. The astrological and the calendar year.

The astrological year starts at day 1 of of the Tiger month (month 11 of calendar year).

The calendar year starts at day 1 of the Dragon month.

The day is from 05:00 till the next day 05:00.

If you choose for "Use local time" there will be a recalculation for Lhasa time.

**Remember** as the calendar is calculated for Tibet Lhasa time and all other calculations are based on Tibetan astrology you better recalculate the birth time to Lhasa time. The website automatically adjusts for the correct Tibetan day. Also all calculations are automatically adjusted for the correct date and time. E.g. 19761221 04:59 gives for the astrological year 1976, month 12 and day 29 where at 05:00 it will give year 1977, month 1 and day 1.

## Year sign and element

20130614 09:30

The year sign (lo) and element can easily be calculated if you know a certain year and as we do know that the year 1024 (middle row) is a Wood – Mouse year we start from here.

Even years are male and Odd years are female.

### *Sign year*

$(2013 - 1024) / 12 = 82$  remainder is 5.

Using the remainder start at 0 = Mouse, 1 = Ox, 2= Tiger, 3= Rabbit, 4 = Dragon, 5 = Snake, 6 = Horse, 7 = Sheep, 8 = Monkey, 9 = Rooster, 10 = Dog, 11 = Pig.

So at 5 we find Sign = Snake.

### ***Element year***

$(2013 - 1024) / 10 = 98$  remainder is 9.

Using the remainder start at 0 = Wood, 1 = Wood, 2 = Fire, 3 = Fire, 4 = Earth, 5 = Earth, 6 = Metal, 7 = Metal, 8 = Water, 9 = Water, 10 = Water.

So at 9 we find Element = Water.

### **Month sign and element**

20130614 09:30

Once you know the year (Snake) you can find the month sign (daba) and element.

The month signs are always, Calendar/Astrological year month  
E.g. the 5<sup>th</sup>/7<sup>th</sup> month of 2013 a Water Snake year.

### ***Sign month***

month 1 / 3 = Dragon, 2 / 4 = Snake, 3 / 5 = Horse,  
4 / 6 = Sheep, 5 / 7 = Monkey, 6 / 8 = Rooster, 7 / 9 = Dog,  
8 / 10 = Pig, 9 / 11 = Mouse, 10 / 12 = Ox, 11 / 1 = Tiger and  
12 / 2 = Rabbit.

So for month 5/7 sign is Monkey

### ***Element month***

The month element depends on the element of the year.

The year starts at the 11/1<sup>st</sup> Tibetan month (Tiger) of the previous year. The element of this month is the child of the year element which for this example Water year is Wood.

So Wood is used for month 11/1 and 12/2 (Tiger and Rabbit).

Fire the child of Wood is used for month 1/3 and 2/4 (Dragon and Snake). Earth the child of Fire is used for month 3/5 and 4/6 (Horse and Sheep). Metal the child of Earth is used for month 5/7 (Monkey).

So for month 5/7 element is Metal

## **Day sign and element**

20130614 09:30

Once you know the month (Metal Monkey) you can find the day sign (zhag) and element.

Care has to be taken to use the correct day as sometimes days are omitted and sometimes days are doubled.

E.g. day 6 of month 5/7 Metal male Monkey of year 2013.

(For month 5/7 day 6 June 14<sup>th</sup> 2013 there are no missing or doubled days before day 21).

It is important to know the gender of the month to find the correct day sign as for the male month the first day sign starts with Tiger and the first day sign for female month starts with Monkey. So as this is male month we start

### ***Sign day***

Tiger = 1, Rabbit = 2, Dragon = 3, Snake = 4, Horse = 5 and Sheep = 6 is the sign.

### ***Element day***

Start with the child of the month element. In this example month Metal so start with Water.

Water = 1, Wood = 2, Fire = 3, Earth = 4, Metal = 5 and Water = 6 which is the day element.

The following rules exist to find the correct day sign and element.

1. The element of the first day in the month is the child of the month element. E.g. day 1 in a Wood month element is Fire, day 2 Earth, day 3 Metal, etc.
2. The day element changes every day in the sequence Wood, Fire, Earth, Metal, Water.

3. The sign of the first day in the male month's (1,3,5,7,9,11) start with Tiger. E.g. Tiger day 1, Rabbit day 2, etc.
4. The sign of the first day in the female month's (2,4,6,8,10,12) start with Monkey. E.g. Monkey day 1, Rooster day 2, etc.
5. The day sign changes every day in the sequence Tiger, Rabbit, Dragon, etc for a male month and Monkey, Rooster, dog, etc for a female month.
6. When there is a double day the second day has the same sign and element as the first day. E.g. 20130319 Day 8F Water Rabbit and 20130320 Day 8S Water Rabbit.
7. When a day is omitted the normal cycle continues. E.g. 20130307 Day 25 Fire Tiger, day 26 omitted (Earth – Rabbit) and 20130308 Day 27 Metal Dragon.

## Hour sign and element

Once you know the day you can find the hour sign (dus) and element.

Important to know is that a Tibetan day start at 05:00 and that every two hours have assigned signs

Hour	Sign	Tibetan name	
05:00 – 06:59	Rabbit	Nam langs	daybreak
07:00 – 08:59	Dragon	Nyi shar	sunrise
09:00 – 10:59	Snake	Nyi dros	mid-morning
11:00 – 12:59	Horse	Nyi phyed	noon
13:00 – 14:59	Sheep	Phyed yol	mid noon
15:00 – 16:59	Monkey	Nyi myur	late afternoon
17:00 – 18:59	Rooster	Nyi nub	sunset
19:00 – 20:59	Dog	Sa srod	twilight
21:00 – 22:59	Pig	Srod 'khor	evening
23:00 – 00:59	Mouse	Nam phyed	midnight
01:00 – 02:59	Ox	Phyed yol	mid noon
03:00 – 04:59	Tiger	Tho rangs	pre dawn

### *Hour sign*

E.g. 20130614 09:30.

The sign is Snake (09:00-10:59)

### *Hour element*

The first element of the hour is the child of the day element.

Then every two hours the element will change.

Start with the child of the day element. In this example Wood is the child of day element Water.

Wood = 05:00, Fire = 07:00, Earth = 09:00 which is the hour element.

Hour	Day element				
	Wood	Fire	Earth	Metal	Water
05:00 – 06:59	Fire	Earth	Metal	Water	Wood
07:00 – 08:59	Earth	Metal	Water	Wood	Fire
09:00 – 10:59	Metal	Water	Wood	Fire	Earth
11:00 – 12:59	Water	Wood	Fire	Earth	Metal
13:00 – 14:59	Wood	Fire	Earth	Metal	Water
15:00 – 16:59	Fire	Earth	Metal	Water	Wood
17:00 – 18:59	Earth	Metal	Water	Wood	Fire
19:00 – 20:59	Metal	Water	Wood	Fire	Earth
21:00 – 22:59	Water	Wood	Fire	Earth	Metal
23:00 – 00:59	Wood	Fire	Earth	Metal	Water
01:00 – 02:59	Fire	Earth	Metal	Water	Wood
03:00 – 04:59	Earth	Metal	Water	Wood	Fire

## **Namkha Element calculations**

For calculations elements are given the following values:

Wood = 0, Fire = 1, Earth = 2, Metal = 3 and Water = 4

For Year, Month, Day and Hour the same methods are used.

(see: <https://www.tibastro.be/Element/FiveCat>) but you can also use the following table.

## **Namkha Mewa calculations**

For Year, Month, Day and Hour the same methods are used.

White 1, White 6 and White 8 are Metal (white 3)

Black 2 and Blue 3 are Water (blue 4)

Green 4 is Wood (green 0)

Yellow 5 is Earth (yellow 2)

Red 7 and Red 9 are Fire (red 1)

## **Year Mewa**

The year (month, day and hour) Body Mewa is defined by the element, sign and the metreng used.

1684 – 1743, 1864 – 1923 Upper metreng (top)

1744 – 1803, 1924 – 1983 Intermediate metreng (middle)

1804 – 1863, 1984 – 2043 Lower metreng (bottom)

E.g. for a Fire Dragon year

In the Upper metreng (1916) the Mewa is Blue 3.

In the Intermediate metreng (1976) the Mewa is White 6

In the Lower metreng (2036) the Mewa is Red 9

An easy method to calculate the body Mewa is to use a year with a Mewa you know.

E.g. 1687 which has Mewa Red 7.

Take the year of interest minus 1687 add one and divide by 9.

The remainder is used to find the correct Mewa. Count from Red 7.

E.g.

Mewa for 1942 is  $(1942 - 1687 + 1) / 9 = 28$  remainder 4. Start with 1=Red 7, 2 =White 6, 3=Yellow 5 and 4=Green 4 which is the Mewa for 1942.

If you like to start with Mewa's White 1 use the year 1684 which has Mewa White 1.

Use  $(1942 - 1684 + 1)/9 = 28$  remainder 7 Start with 1 =White 1, 2= Red 9, 3= White 8, 4=Red 7, 5=White 6, 6=Yellow 5 and 7=Green 4 which is the Mewa for 1942.

### ***E.g. Year Mewa***

for 1976 1221 05:00 the mewa's are not the same

	Calendar 1976	Astrological 1977
Body	White 6 / Metal	Yellow 5 / Earth

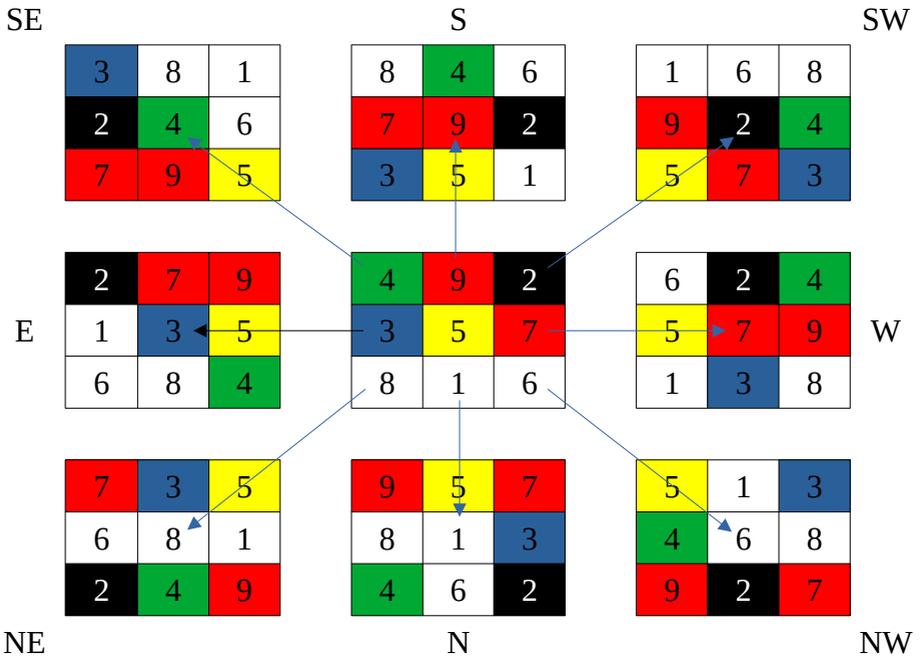

## **Life and Capacity Mewa**

There are two methods to calculate the Life and Capacity Mewa implemented. The here called "Traditional" and "Local" version.

Remember the position of the Mewa changes every year/month and day in the sequence 123456789.

SE	South			SW
	4	9	2	
East	3	5	7	West
	8	1	6	
NE	North			NW

### ***Traditional Mewa calculation***

As the Mewa's continually change from 1 to 9 it is easy to find the Life and Capacity Mewa as they depend on the Body (year) Mewa.

The Life Mewa is 4 places before the Body Mewa.

E.g. for a body Mewa Yellow 5 start at 5 and go 4 places to the left (before) and you find Black 2.

Sequence ...8912345678912... (start at a count of 1). Or take the mewa which is in the SW.

The Capacity Mewa is 4 places after the Body Mewa.

E.g. for a Body Mewa Yellow 5 start at 5 and go 4 places to the right (after) and you find White 8.

Sequence ...8912345678912... (start at a count of 1). Or take the mewa which is in the NE.

### ***Local Mewa calculation***

Here the calculations for the Life and Capacity Mewa are completely opposite as in the traditional way.

The Life Mewa is 4 places after the Body Mewa.

E.g. for a Body Mewa Yellow 5 start at 5 and go 4 places to the right (after) and you find White 8.

Sequence ...8912345678912... (start at a count of 1). Or take the mewa which is in the NE.

The Capacity Mewa is 4 places before the Body Mewa.

E.g. for a Body Mewa Yellow 5 start at 5 and go 4 places to the left (before) and you find Black 2.

Sequence ...8912345678912... (start at a count of 1). Or take the mewa which is in the SW.

### ***E.g. Life / Capacity Mewa***

Life / Capacity Mewa

for 19761221 05:00 the mewa's are not the same

	Calendar 1976	Astrological 1977
Body	White 6 / Metal	Yellow 5 / Earth
Life	Blue 3 / Water	Black 2 / Water
Capacity	Red 9 / Fire	White 8 / Metal

### **Fortune Mewa (luck) calculations.**

There are more methods to calculate the fortune Mewa element. There are two methods implemented. Here called "Traditional" and "Simplified" version.

### ***Traditional fortune (luck) calculations.***

First look after the birth-year sign to find the key for the next step.

- For a Tiger, Horse or Dog the next step starts with Metal – Monkey
- For a Pig, Sheep or Rabbit the next step starts with Fire – Snake
- For a Bird, Ox or Snake the next step starts with Water – Pig
- For a Mouse, Dragon or Monkey the next step starts with Wood – Tiger

Find the key year in the same metreng as the birth-year with the key found in the previous step.

The vitality Mewa of this year is the Luck Mewa.

E.g. for 19761221 05:00

Calendar year 1976 Fire Dragon use Wood Tiger 1974 (mewa white 8) which vitality Mewa is Yellow 5

Astrological year 1977 Fire Snake use Water Pig 1983 (mewa white 8) which vitality Mewa is Yellow 5

	Calendar 1976	Astrological 1977
Body	White 6 / Metal	Yellow 5 / Earth
Fortune	Yellow 5 / Earth	Yellow 5 / Earth

### ***Simplified fortune (luck) calculations.***

Only use the Signs (not the combination of element and sign).

- For a Tiger, Horse or Dog find the **Monkey** year before the Body Mewa year
- For a Pig, Sheep or Rabbit find the **Snake** year before the Body Mewa year
- For a Bird, Ox or Snake find the **Pig** year before the Body Mewa year

- For a Mouse, Dragon or Monkey find the **Tiger** year before the Body Mewa year

In practice this means

- For a Tiger, Pig, Snake or Monkey add 6 to the Body Mewa of the sign
- For a Horse, Rabbit, Bird or Mouse add 10 to the Body Mewa of the sign
- For a Dog, Sheep, Ox or Dragon add 2 to the Body Mewa of the sign

In case that the result is more than 9 subtract 9

E.g. for 19761221 05:00

Calendar year 1976 Fire Dragon Body Mewa is White 6 add 2 which gives White 8

Astrological year 1977 Fire Snake Body Mewa is Yellow 5 add 6 which gives (11 – 9) Black 2

	Calendar 1976	Astrological 1977
Body	White 6 / Metal	Yellow 5 / Earth
Fortune	White 8 / Metal	Black 2 / Water

## Month Mewa

### *Method 1*

The following is a method described by Jamgon Kongtrul in rTsis kyi bstan bcos nyer mkho bum bzang las skar skar rtsis kyi lag len..... vol.14

To calculate a Mewa for a particular month the first thing necessary is to define an epoch. Here we use 1807. For the

month we have to remember that when month 11 or 12 is used the calculation is for the next year astrological month 1 and 2 (actual month-count used is from 0 till 11). An intercalary month has the same Mewa as the delayed month. Every three years the same month sequence appears.

### Formula

$$(((\text{YearToFind}-1807) * 12) + (\text{MonthToFind}-1) + 4) / 9)$$

gives a quotient and a remainder.

Using the remainder we find:

0=White 1, 1=Red 9, 2=White 8, 3=Red 7, 4=White 6,  
5=Yellow 5, 6=Green 4, 7=Blue 3, 8=Black 2.

When you replace the remainder 0 with 9 you can use  
10-Remainder=Mewa

E.g.

Astrological MonthToFind 1 in YearToFind 1995.

Use 1994 and 11 (previous year month 11)

$$(((1994-1807)*12) + (11-1)+4)/9$$

$$(2244+14)/9$$

$$2258/9=250 \text{ remainder } 8 \text{ is Black } 2 (10-8=2)$$

Astrological MonthToFind 2 in YearToFind 1995.

Use 1994 and 12 (previous year month 12)

$$(((1994-1807)*12) + (12-1)+4)/9$$

$$(2244 +15)/9$$

$$2259/9=251 \text{ remainder } 0 \text{ is White } 1 (10-9=1)$$

Astrological MonthToFind 3 in YearToFind 1995.

Use 1995 and MonthToFind - 2 = 1 for MonthToFind

$$(((1995-1807)*12) + (1-1)+4)/9$$

$$(2256 +4)/9$$

$$2260/9=251 \text{ remainder } 1 \text{ is Red } 9 (10-1=9)$$

12 Ox	10	Red 9	White 6	Blue 3	late winter

\* month 11 and 12 are from the previous year

1. The Mewas Black 2, White 8, Yellow 5 and Black 2 are the Mewas for the early month of the seasons for the Tiger, Snake, Monkey and Pig year
2. The Mewas Red 7, Green 4, White 1 and Red 7 are the Mewas for the mid month of the seasons for the Rabbit, Horse, Rooster and Mouse year
3. The Mewas Blue 3, Red 9, White 6 and Blue 3 are the Mewas for the late month of the seasons for the Dragon, Sheep, Dog and Ox year

## ***Method 2***

Pointed out by Migmar Tsering, in the Vaidurya dkar po (256, 15) it says:

1. The three [Mewas] black 2, yellow 5, and white 8 are the birth Mewa of each of the early months of the four seasons (ra ba bzhi: Tiger, Snake, Monkey, Boar).
2. The three [Mewas] white 1, green 4, and red 7 are the birth Mewa of each of the second months of the four seasons ('bring po bzhi: Hare, Horse, Bird, Mouse).
3. The three [Mewas] blue 3, white 6, and red 9 are the birth Mewa of each of the late months of the four seasons (tha chung bzhi: Dragon, Sheep, Dog, Ox)."
4. Here it is implied that the calculation proceeds in a reverse order (lugs ldog).

- Unfortunately there is no indication which mewa is applied to which early season, second month and late month and there are three Mewas for 4 seasons.
- There is no information about the Mewas for other seasons (month).
- There is no information about the seasons.
- In the table above the seasons are added as given in Tibetan Elemental Divination Paintings: Illuminated Manuscripts from The White Beryl of Sangs-rgyas rGya-mtsho, with the Moonbeams Treatise of Lo-chen Dharmaśrī. Commentary and translations By Gyurme Dorje.

Logically arranging the Mewas  
for Tiger, Snake, Monkey, Boar the month in early Season  
Black 2 month 1 early spring  
White 8 month 4 early summer  
Yellow 5 month 7 early autumn  
Black 2 month 10 early winter

for Hare, Horse, Bird, Mouse the month in mid Season  
Red 7 month 2 mid spring  
Green 4 month 5 mid summer  
White 1 month 8 mid autumn  
Red 7 month 11 mid winter  
for Dragon, Sheep, Dog, Ox the month in late Season  
Blue 3 month 3 late spring  
Red 9 month 6 late summer  
White 6 month 9 late autumn  
Blue 3 month 12 late winter  
Which gives you the table as above where there is a reverse order.

### ***Final Month Mewa calculations***

Once the Month mewa is found (Body Mewa) the Capacity, Life and Fortune Mewa can be found as described by Life and Capacity Mewa and Fortune Mewa.

## **Day Mewa**

### ***Forward day Mewa***

The day Mewa's have an ascending order. Be aware of omitted and double days.

The first day of the Tiger, Snake, Monkey or Pig month starts with White 1, followed by Black 2, Blue 3, etc.

The first day of the Rabbit, Horse, Bird or Mouse month starts with Green 4, followed by Yellow 5, White 6, etc.

The first day of the Dragon, Sheep, Dog or Ox month starts with Red 7, followed by White 8, Red 9, etc.

### ***Reverse day Mewa***

The reverse day Mewa's (only used for females) have a descending order. Be aware of omitted and double days.

The first day of the Tiger, Snake, Monkey or Pig month starts with White 1, followed by Red 9, White 8, etc.

The first day of the Rabbit, Horse, Bird or Mouse month starts with Red 7, followed by White 6, Yellow 5, etc.

The first day of the Dragon, Sheep, Dog or Ox month starts with Green 4, followed by Blue 3, Black 2, etc.

**The reverse day Mewa's are only used for FEMALES.**

### ***Final Day Mewa calculations***

Once the Day mewa is found (Body Mewa) the Capacity, Life and Fortune Mewa can be found as described by Life and Capacity Mewa and Fortune Mewa.

### **Hour mewa**

There are 12 double hours starting at 05:00 with sign Rabbit followed at 07:00 with Dragon, etc.

Once you know the day you can find the hour sign and element.

See: [www.tibastro.be](http://www.tibastro.be) → Start → Element → General

Important to remember is that a Tibetan day start at 05:00 and that every two hours have a sign assigned.

Also recalculate your time of birth to Tibet Lhasa time for a correct hour mewa.

As there are 9 mewa's the double hours are split into 3 time slots (each 40 minutes) giving a total of 36 (12×3) slots. Every 2 slots (80 minutes) are given the name of a sequential mewa where the first slot is the same as the day mewa.

Calculation: (or use the table below)

Find the index for the day mewa

Red9              8

Add the time Mewa Index and look for the result.

Total time to start is hour 05:00 ( $5 \times 6 = 300$ )

Sign	time	Total time	Mewa Index

	40-79	$\geq 220$	
03:40	80-119	$\leq 229$	

E.g.

Day Mewa Green 4 index 3

Time 23:59 index 5

Total index  $3 + 5 = 8$  which gives Red 9

If the sum of the indexes is  $\geq 9$  subtract 9

E.g.

Day Mewa Green 4 has index 3

Time 16:05 index 8

Total index  $8 + 3 = 11$  so subtract 9

$11 - 9 = 2$  which gives Blue 3

Year 2012 Water male Dragon Mewa White 6, Month 5 Metal male Monkey, Day 6 Water Sheep

Hour Sign is Snake (09:00), Day Mewa is White 6

For the Hour Element start with the child of the day element.

For this example child of Water is Wood.

Wood = 05:00, Fire = 07:00, Earth = 09:00 which is the hour element. Hour Earth Snake.

For the Hour Mewa start with the index for White 6 (day mewa) which is 5. Add the hour index which is 3 totaling to 8 which is Red 9 (If the sum of the indexes is  $\geq 9$  subtract 9).

Year 2012 Water male Dragon, Month 7 Metal male Monkey, Day 6 Water Sheep, Hour 09:30 Earth Snake with Mewa Red 9.

**Note:** when the time of birth is before 05:00AM the previous day is used.

E.g. 20120625 04:30 Tibet Lhasa is the day before

Year 2012 Water male Dragon Mewa White 6, Month 5 Metal male Monkey, **Day 5** Metal Horse Mewa Yellow 5, Hour Wood Tiger Mewa Green 4.

## ***Final Hour Mewa calculations***

## Relations

The elements of a Namkha can have the following relations to the Life rhombus or for the Mewa's to the Life Mewa rhombus. (if you use local mewa calculations the capacity mewa)

Element Life	Mother OOO	Child OX	Friend OO	Enemy XX	Same O or X
Wood	Water	Fire	Earth	Metal	Wood X
Fire	Wood	Earth	Metal	Water	Fire X
Earth	Fire	Metal	Water	Wood	Earth O
Metal	Earth	Water	Wood	Fire	Metal X
Water	Metal	Wood	Fire	Earth	Water O

## Relations example

E.g. 2008 Earth – Mouse Life is Water Blue

# Namkha

For males Capacity is on the right side and Fortune on the left side.

For females the Capacity is on the left side and Fortune on the right side.

## Life

The center of Life starts with the color of the element of the sign of the calculated year.

Wood – (green 0) for Tiger and Rabbit

Fire – (red 1) for Snake and Horse

Earth – (yellow 2) for Dragon, Sheep, Dog and Ox

Metal – (white 3) for Monkey and Rooster

Water – (blue 4) for Pig and Mouse

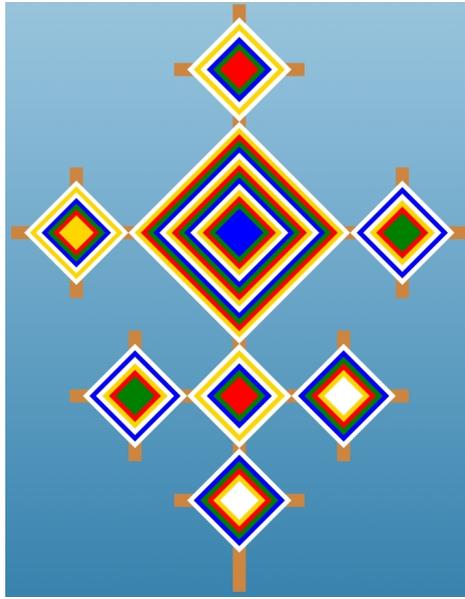

From the inside out there exists a child sequence.

E.g. an Earth Mouse year (2008) starts with Water (blue 4) followed by Wood (green 0), Fire (red 1), Earth (yellow 2) and Metal (white 3). This sequence repeats itself three times. The last color, in this example white 3, will be used to harmonize all other items of the Namkha.

For 2008 Earth Mouse the calculated elements for a Male are:

Life	Water	Blue
Body	Fire	Red
Capacity	Earth	Yellow
Fortune	Wood	Green
Mewa Life	Red7	Red
Mewa Body	White1	White
Mewa Capacity	Green4	Green
Mewa Fortune	White8	White

The Mewa's are calculated for a Male using the traditional way.

The Life sequences (from inside out) are:

Tiger and Rabbit:

Wood (green) – Fire (red) – Earth (yellow) – Metal (white) –  
Water (blue)

Snake and Horse:

Fire (red) – Earth (yellow) – Metal (white) – Water (blue) -  
Wood (green)

Dragon, Sheep, Dog and Ox:

Earth (yellow) – Metal (white) – Water (blue) - Wood (green) –  
Fire (red)

Monkey and Rooster:

Metal (white) – Water (blue) - Wood (green) – Fire (red) -  
Earth (yellow)

Pig and Mouse:

Water (blue) - Wood (green) – Fire (red) - Earth (yellow) -  
Metal (white)

## **Body**

Depending on the calculated body element the body will start with the element color (in this example Fire Red). The following colors depend on the relation with the Life element (in this example Fire is a Friend of Water) see: Harmonizing towards Life Enemy / Friend

## **Capacity**

Depending on the calculated capacity element the body will start with the element color (in this example Earth Yellow). The following colors depend on the relation with the Life element (in this example Earth is an Enemy of Water) see: Harmonizing towards Life Enemy / Friend

## **Fortune**

Depending on the calculated fortune element the body will start with the element color (in this example Wood Green). The following colors depend on the relation with the Life element (in this example Earth is a Child of Water) see: Harmonizing towards Life Child relation

## **Life Mewa**

Depending on the calculated Life Mewa element the body will start with the element color (in this example Fire Red7). The following colors depend on the **relation with the Life element** (in this example Fire is a Friend of Water) see: Harmonizing towards Life Enemy / Friend

## **Capacity Mewa**

Depending on the calculated Capacity Mewa element the body will start with the element color (in this example Wood Green4).

The following colors depend on the **relation with the Life Mewa** element (in this example Wood is the Mother of Fire) see: Harmonizing Mewa's Mother / Child / SameO / SameX

## **Fortune Mewa**

Depending on the calculated Fortune Mewa element the body will start with the element color (in this example Metal White8).

The following colors depend on the **relation with the Life Mewa** element (in this example Metal is the Friend of Fire) see: Harmonizing Mewa's Enemy / Friend

## **Body Mewa**

Depending on the calculated Body Mewa element the body will start with the element color (in this example Metal White1).

The following colors depend on the **relation with the Life Mewa** element (in this example Metal is the Friend of Fire) see: Harmonizing Mewa's Enemy / Friend

## **Relations and harmonizing**

Harmonization is done by adding the last element of the Life rhombus to the Body, Capacity, Fortune and Life Mewa element sequence.

Special care has to be taken adding the harmonizing element to the Body Mewa, Capacity Mewa and Fortune Mewa as their relations are towards the Life Mewa.

## **Harmonizing towards Life**

### ***Explanation***

In a Mother, Child, SameX or SameO relation the sequence from inside to outside is a child sequence.

Start with the calculated element and do all other elements.

E.g. start element followed by child sequence

Wood (green 0) – Fire (red 1) – Earth (yellow 2) – Metal (white 3) – Water (blue 4)

Fire (red) – Earth (yellow) – Metal (white) – Water (blue) - Wood (green)

Earth (yellow) – Metal (white) – Water (blue) - Wood (green) – Fire (red)

Metal (white) – Water (blue) - Wood (green) – Fire (red) - Earth (yellow)

Water (blue) - Wood (green) – Fire (red) - Earth (yellow) - Metal (white)

### **Mother relation**

In a Mother relation the sequence from inside to outside is a child sequence.

In a mother relation the Harmonizing element is added.

E.g. 1942 a horse year the Life sequence starts with element Fire(1), followed by Earth(2), Metal(3), Water(4) and ends with Wood(0) which is the harmonizing element.

The calculated element for Body is Wood(0) which is a Mother relation to Life Fire(1).

Start with Wood(0), followed by the child sequence Fire(1), Earth(2), Metal(3), Water(4) and add Wood(0) the harmonizing element.

### **Child relation**

In a Child relation the sequence from inside to outside is a child sequence.

In a child relation the element before the last element is added.

E.g. 1944 a Monkey year the Life sequence starts with element Metal (3), followed by Water (4), Wood (0), Fire (1) and ends with Earth (2) which is the harmonizing element.

The calculated element for Body is Water(4) which is a child relation to Metal(3).

Start with Water(4) followed by the child sequence Wood(0), Fire(1), Earth(2), Metal(3) and add Earth(2) the harmonizing element.

### **SameO SameX relation**

In a SameX or SameO relation the sequence from inside to outside is a child sequence.

There is no need to add an element.

E.g. Pig year 1983 the harmonizing element is **Metal** (white 3) and the sequence for SameO Body Water(4) is:

Water (blue 4) - Wood (green 0) - Fire (red 1) - Earth (yellow 2) - Metal (white 3)

### **Enemy / Friend**

In an enemy relation the sequence from inside to outside is a mother sequence.

Start with the calculated element and do all other elements.

E.g. start element followed by mother sequence

Wood (green) - Water (blue) - Metal (white) - Earth (yellow) - Fire (red)

Fire (red) - Wood (green) - Water (blue) - Metal (white) - Earth (yellow)

Earth (yellow) - Fire (red) - Wood (green) - Water (blue) - Metal (white)

Metal (white) - Earth (yellow) - Fire (red) - Wood (green) - Water (blue)

Water (blue) - Wood (green) - Fire (red) - Earth (yellow) - Metal (white)

When the **harmonizing element IS the same** as the last element in the life sequence the sequence is extended with two elements. The first one the next element in the mother direction and the second one the harmonizing element.

E.g. Pig year 1947 the harmonizing element is **Metal** (white 3) and the sequence for enemy Body relation Earth(2) is:  
Earth (yellow 2) - Fire (red 1) - Wood (green 0) - Water (blue 4) - **Metal** (white 3) the next element will be Earth (yellow 2) followed by the harmonizing element Metal (white 3).

When the **harmonizing element IS NOT the same** just add the harmonizing element.

E.g. Pig year 1947 the harmonizing element is **Metal** (white 3) and the sequence for Friend Capacity or Fortune relation Fire(1) is:  
Fire (red 1) - Wood (green 0) - Water (blue 4) - Metal (white 3) - Earth (yellow 2) the next element will be the harmonizing element Metal (white 3).

## Harmonizing Mewa's

The harmonizing element from the Life rhombus is used for Life Mewa, Capacity Mewa, Fortune Mewa and Body Mewa. The relation for the Life Mewa (or capacity Mewa when local tradition is selected) is towards the Life rhombus. The relation between the other Mewa's is towards the Life Mewa (or capacity Mewa when local tradition is selected).

### *Mother / Child / SameO / SameX*

In a mother, child sameO or sameX relation the sequence from inside to outside is a child sequence.

Start with the calculated element and do all other elements.

E.g. start element followed by child sequence

Wood (green), Fire (red), Earth (yellow), Metal (white), Water (blue)

Fire (red) – Earth (yellow) – Metal (white) – Water (blue) - Wood (green)

Earth (yellow) – Metal (white) – Water (blue) - Wood (green) – Fire (red)

Metal (white) – Water (blue) - Wood (green) – Fire (red) -  
Earth (yellow)

Water (blue) - Wood (green) – Fire (red) - Earth (yellow) -  
Metal (white)

### ***Enemy / Friend***

In an enemy / friend relation the sequence from inside to  
outside is a mother sequence.

Start with the calculated element and do all other elements.

E.g. start element followed by mother sequence

Water (blue)- Wood (green) - Fire (red) - Earth (yellow) -  
Metal (white)

Metal (white) - Earth (yellow) - Fire (red) - Wood (green) -  
Water (blue)

Earth (yellow) - Fire (red) - Wood (green) - Water (blue) -  
Metal (white)

Fire (red) - Wood (green) - Water (blue) - Metal (white) - Earth  
(yellow)

Wood (green) - Water (blue) - Metal (white) - Earth (yellow) -  
Fire (red)

### ***Explanation***

The first step is to look after the Mewa relations. For the Life  
Mewa to the Life Element. For the Body, Capacity and Fortune  
Mewa to the Life Mewa.

To harmonize the outer element of the Element Life Rhombus  
is used. The first element in the calculated Mewa sequence is  
compared with the outer element of the Element Life giving a  
Same, Child, Friend, Enemy or Mother relation for Mother,  
Child, Same X and Same O Mewa relations. The relations  
Same FE, Child FE, Friend FE, Enemy FE or Mother FE  
relation in case of a Friend or Enemy Mewa relation.

## ***Mewa relations Mother, Child and Same (XO)***

### **Same**

When the first element (1) in the calculate Mewa sequence is the Same as the harmonizing element add the sequence followed by the harmonizing element.

E.g. 1918 Earth Horse harmonizing element is Wood(0).  
Life Mewa Red 7. Capacity mewa is Green (4). Relation  
Mother.

### **Child**

When the first element (1) in the sequence is the Child of the harmonizing element just add the sequence. The last element (5) in the sequence is the harmonizing element.

E.g. 1966 Fire Horse harmonizing element is Wood(0).  
Life Mewa Green 4. Body Mewa is Red 7. Relation Child

### **Friend**

When the first element (1) is the Friend of the harmonizing element add the harmonizing element to the sequence. The fourth element (4) in the sequence is the harmonizing element.

E.g. 2025 Wood Snake harmonizing element is Wood(0).  
Life Mewa is White 8. The Capacity Mewa is Yellow 5.  
Relation Mother.

### **Enemy**

When the first element (1) is the Enemy of the harmonizing element add the fourth (4) and the third (3) elements. The third element (3) in the sequence is the harmonizing element.

E.g. 1977 Fire Snake harmonizing element is Wood(0).  
Life Mewa Black 2. Capacity Mewa is White(8). Relation  
Mother.

### **Mother**

When the first (1) element is the Mother of the harmonizing element add the first (1) and the second (2) element in the sequence. The second element (2) in the sequence is the harmonizing element.

E.g. 2002 Water Horse harmonizing element is Wood(0).  
Life Mewa Green 4. Luck Mewa Black 2. Relation Mother.

### ***Mewa relations Friend, Enemy***

#### **Same FE**

When the first element (1) in the sequence is the Same as the harmonizing element add the sequence followed by the harmonizing element.

E.g. 1942 Water Horse harmonizing element is Wood(0).  
Life Mewa White 1. Body Mewa Green 4. Relation Friend.

#### **Mother FE**

When the first element (1) in the sequence is the Mother of the harmonizing element just add the first and the last elements. The last element (5) in the sequence is the harmonizing element.

E.g. 1978 Earth Horse harmonizing element is Wood(0).  
Life Mewa White 1. Body Mewa Green 4. Relation Friend.

#### **Enemy FE**

When the first element (1) is the Enemy of the harmonizing element add the harmonizing element to the sequence. The fourth element (4) in the sequence is the harmonizing element.

E.g. 1966 Fire Horse harmonizing element is Wood(0).  
Life Mewa Green 4. Capacity Mewa White 1, Relation Enemy.

### **Friend FE**

When the first (1) element is the Friend of the harmonizing element add the fourth (4) and the third (3) elements. The third element (3) in the sequence is the harmonizing element.

E.g. 1977 Fire Snake harmonizing element is Wood(0).  
Life Mewa Black 2. Body Mewa Yellow 5. Relation Enemy.

### **Child FE**

When the first (1) element is the Child of the harmonizing element add the first (1) and the second (2) element. The second element (2) in the sequence is the harmonizing element.

E.g. 1978 Earth Horse harmonizing element is Wood(0).  
Life Mewa White 1. Capacity Mewa Red 7. Relation Enemy.
